

Enjoy your conservatory

The B-126 is an awning with lateral guides for conservatories and inclined glass roofs. The lateral guide system offers an extension upto 1m25 over the front of your conservatory. All elements are contained in the self supporting full cassette casing which guarantees a perfect functioning of the system. The specially designed box prevents leaves and dirt from getting rolled up in the fabric. The B-126 is made-to-measure and can be easily and quickly installed. The strong U-shaped lateral guides ensure that the fabric meets the guides so that almost no light penetrates.

BRUSTOR
B-126

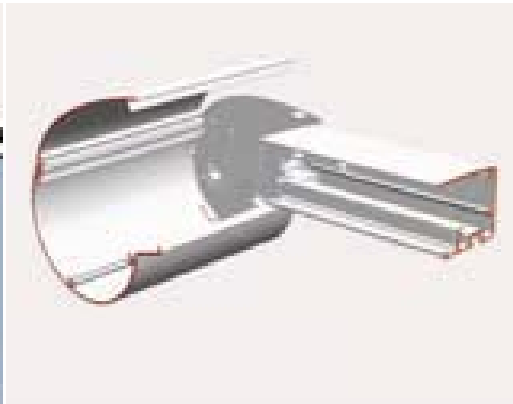

The optional extension increases the shade in your conservatory.

The B-126 is coupled from 5,00 m width. The strong U-shaped guides ensure that the fabric meets the guides so that almost no light penetrates.

Conservatory awning with extension. Optional extra with a maximum extension of up to 1m25.

The box is made of extruded, corrosion resistant, powder coated aluminium.
